

Centers of Excellence Site Capabilities

Helping you improve the landscape of global human health - one trial at a time.

Get more value from your clinical trials with CenExel

CenExel is a leading nationwide clinical research site and patient network serving the life sciences industry. Our sites provide unparalleled medical and scientific support in the design and execution of clinical trials.

Leading in CNS and early phase studies, our 18 science-led Centers of Excellence deliver the right patients, at the right time, in the right place. Our efficiency and quality lead to faster trial initiations and completion.

Our world-class PIs, advanced patient engagement strategies, premium data analytics, and integrated operations optimize every step of your trial process.

This e-Directory provides a summary of each site's capabilities and more. Navigate by location, therapeutic area or Principal Investigator name.

Discover the CenExel advantage — start exploring now.

(AAAASF's board-certified, ~2,500 institutions have this accreditation worldwide (note there are ~9,000 facilities in the US alone))		Biopsy Processing	Central IRB
Anesthesiology	Diabetes/Obesity	Pain-Dental Extractions	Healthy Volunteer	DDI <i>(Drug-Drug Interaction)</i>			On Site Safety Lab	IBC Certified
Dermatology	Migraine	Pain-Total Joint	Pediatrics & Adolescents	Device	Anesthesiology	Holter Monitoring	PBMC Processing	
Endocrinology/Metabolism	Pain-Abdominoplasty	Pain-Multi-Surgical	Women of Non-Child Bearing Potential	FIH <i>(First in Human)</i>	Dental Suites (Onsite)	IV Dosing		
Infectious Disease/Vaccine	Pain-Bunionectomy	Sleep Disorders		Food Effect	Dexa Scan	Open Hernia Repair		
Sleep Medicine	Pain-Chronic			Formulation	Domiciling	Surgical Suite	PHARMACY CAPABILITIES	
				PK/PD	Endoscopy/Biopsy	Telemetry		
				SAD/MAD <i>(Single/Multiple Ascending Dose)</i>	Fluoroscopy	Total Joints		
					Gastroenterology Biopsies	Ultrasound		
					Gynecological Sampling	X-ray		

THERAPEUTIC AREA CAPABILITIES	STUDY INDICATION EXPERIENCE AND PATIENT POPULATIONS		SPECIALTY PATIENT POPULATIONS AVAILABLE	STUDY TYPE CAPABILITIES AND EXPERIENCE	FACILITY AND EQUIPMENT/ PROCEDURAL CAPABILITIES		LAB CAPABILITIES	IRB/IBC
Endocrinology/Metabolism	Addiction/Substance Abuse	Mild Cognitive Impairment	Elderly	BA/BE <i>(Bioavailability & Bioequivalence)</i>	Inpt, 65 beds, Sleep lab, Partnered with Fort Lauderdale Behavioral Health Center to conduct inpatient and outpatient psychiatric trials		Biopsy Processing	Both Local and Central IRB
Infectious Disease/Vaccine	ADHD	NASH	Healthy Volunteer	Cognition			On Site Safety Lab	IBC Certified
Neurology	Alzheimer's	OCD	Hepatic Impaired	DDI <i>(Drug-Drug Interaction)</i>	CPET	Mammogram	PBMC Processing (On-site PBMC isolation lab certified by Duke University Proficiency Program)	
Psychiatry	Bipolar	Parkinson's	Methadone Regimen Subjects	Device	CSF Sampling	MRA		
Psychedelics	Contraception	PTSD	Renal Impaired	FIH <i>(First in Human)</i>	Dexa Scan	MRI		
Sleep Medicine	Depression	Schizophrenia	Vasectomized Males	Food Effect	Domiciling	MRS	PHARMACY CAPABILITIES	
Women's Health	Diabetes/Obesity	Sleep	Women of Non-Child Bearing Potential	PK/PD	EEG	PET	Compounding, Re-constitution, Encapsulation	
	HIV			Psychedelics	Endoscopy/Biopsy	PSG	Light Sensitive Prep	
				SAD/MAD <i>(Single/Multiple Ascending Dose)</i>	fMRI	Pulmonary Function Testing	Non-Sterile Preparation	
				TQT <i>(Thorough QT Study)</i>	Gastroenterology Biopsies	Surgical Suite	Sterile Preparation	
					Gynecological Sampling	Telemetry	Retention of BE Supplies	
					Holter Monitoring	Ultrasound	797 Compliant	
					IV Dosing	X-ray
